PCS250G GPRS/GSM Communicator Module What's New V1.12

P ▲ R ▲ D O X™

The following details the new features and options included in the PCS250G GPRS Communicator Module V1.12. They may not be included in any manuals, therefore use this document in conjunction with your existing PCS250G documentation.

Now Supports the UC300 Universal Converter
The PCS250G now has added support for the UC300 Universal Converter. The UC300 enables reporting of system events/alarms from any security control panel to a Paradox IP512 or IPRS-7 receiver via IP and cellular networks.
