

VF 360

Touch Screen Face ID & RFID Access Control Terminal

VF360 is a Face ID & Proximity access control terminal incorporated with 3" TFT LCD. The color display and touch screen operation offer a user-friendly and easy menu management.

When connected with PC through Ethernet, VF360 is managed by ZKAccess 3.5 software. The software provides 2 applications, the access control and time attendance. It can also operate on standalone mode, and transfer data by USB flash drive.

The latest version of VF360 includes Wiegand Input port to connect external proximity reader and it can be used as a controller's external reader using Wiegand Out port. As a professional access control device, it allows time zones and groups, holiday managements, linkage, anti-passback functions etc.

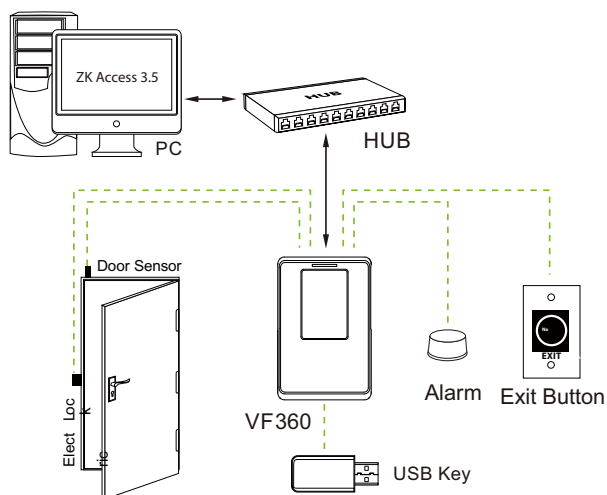

Features

- 3-inch TFT color display and touch screen for ease of operation and enrich user experience
- Embedded with PULL firmware which is standard with ZKAccess3.5 management software
- Incorporate with EM card reader and optional Mifare card reader
- Store up to 200 Face & 10,000 cards Users
- Relay outputs for electric lock and alarm; Digital inputs for door status sensor and exit switch
- Wiegand input and output for connecting third party card readers or controllers for dual factor authentication
- Audio and Visual indication using speakers and LEDs
- Multi-languages display available on request

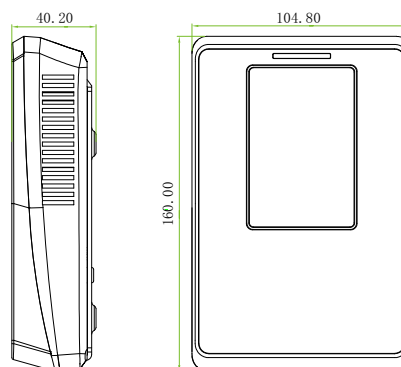

Specifications

Display	3 Inches Touch Screen
Face ID Capacity	200 (1:N)
ID Card Capacity	10,000
Logs Capacity	100,000
Communication	TCP/IP, USB Host, USB Client
Standard Functions	ID card, Automatic Status Switch, T9 input, Multi-verification Method
Access Control Interface	3rd Party Electric Lock, Door Sensor, Exit Button, Alarm
Wiegand Interface	Wiegand input & output
Camera	High Resolution Infrared Camera
Power Supply	12V/3A
Operating Temperature	0°C - 45°C
Operating Humidity	20% - 80%
Dimensions (HxWxD)	160x104.7x36mm
