

## The JA-82C module

The JA-82C is a wired input extension module designed for use within Jablotron's OASiS systems. Follow the control panel installation manual for details.

JABLOTRON ALARMS a.s. hereby declares that the JA-82C is in a compliance with the relevant Union harmonisation legislation: Directives No: 2014/30/EU, 2011/65/EU. The original of the conformity assessment can be found at [www.jablotron.com](http://www.jablotron.com) - Section Downloads.

**Complies with part 15 of the FCC rules.** Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation. **CAUTION:** Changes or modifications not expressly approved by Jablotron could void the user's authority to operate the equipment. The original of the conformity assessment can be found at [www.jablotron.com](http://www.jablotron.com), Download section

Note: Although this product does not contain any harmful materials we suggest you return the product to the dealer or directly to the producer after use.
